

The PREMIER supplier to your industry

Cost Effective Filter Cartridges

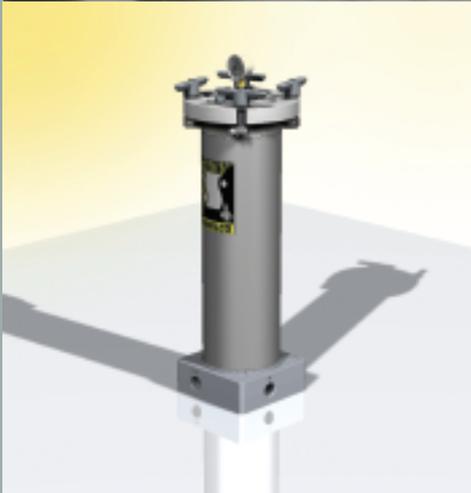

The widest selection of ALL

Top 10 choice

There is now a confusing array of products available. Let us help you decide which is the best choice to satisfy you.

To be assured of cost effective filtration, it is important that the correct media is selected. Together with correct sizing of the filter chamber/filter system we can achieve extended intervals between changeout and offer reusable options to reduce disposal costs.

SERFILCO the earliest innovators of cartridge filtration technology to the Metal Finishing & PCB Industries. We have over 35 years experience from which to make the best possible recommendations to suit your particular requirements.

- **Premier Washed**
Diamond wound, for improved purity. The new industry standard. High efficiency coupled with high dirt load.
- **Polyspun**
Pure polypropylene. Economical, low efficiency but good dirt holding.
- **Polyserf Pleated**
Pure Polypropylene, with extended surface area and much longer life. Absolute micron ratings. Suitable for re-use.
- **Hi-Perf**
Depth wound type for chrome plating processes and highly corrosive acids and solvents.
- **Absolute Micron**
And sub micron rated membranes, with 'O' rings for positive sealing.
- **Re-usable**
Sleeve type surface filters, suitable for periodic cleaning, in-situ chemical leaching and backwash recycling.
- **Carbon Purification**
Cartridges for organic removal, contains high purity, pre-washed and sulphur free carbon.
- **Filter Bags**
Standard industrial sizes, polypropylene for E-Nickel & PCB processes.
- **Extensive Range**
No one can match our capability, nor offer such a selection.
- **Ex-Stock**
Fast, next day, prompt delivery.
