

Low maintenance, trouble-free, leak proof operation provided by sealless magnetic coupling. Additional new features have now been introduced which extends the duty even further. Proven technology that works.

For transfer or recirculation of a wide range of liquid chemicals used in pharmaceuticals, photographic, metal finishing, electronics, breweries, distilleries, flavourings, colourings and for waste treatment applications.

Sealless pumps are our speciality.

## Six Major Plus Points

- **Chemical Resistant**  
PP, PVDF and 316SS materials.
- **High Performance**  
1000 l/min (60m<sup>3</sup>/h) and 32m head.
- **Male Inlet/Outlet BSP Ports**  
With "O" ring seal for leak free connection. Unions/flanges are available as optional.
- **Run-Dry Capability**  
For limited periods, also self prime on some models. High strength rare earth magnets for SG up to 2.0.
- **Robust Construction**  
For reliability and continuous duty. With corrosion resistant motor connecting bracket.
- **High Efficiency Motors**  
With corrosion resistant high gloss epoxy paint finish.
